D815
Executive IP Phone

The Snom D815 SIP Color Deskset seamlessly blends intuitive design with state-of-the-art technology and connectivity. It features a vibrant 5” 480 x 272 pixel color LCD display, flanked by ten programmable feature keys that can be easily navigated across four pages with a dedicated button. With Power over Ethernet (PoE) support and dual Ethernet ports, this deskset is both cost-effective and user-friendly. Enhanced connectivity is provided by a USB port, accommodating accessories like the D8C expansion module for added functionality and one-touch options. Built-in WiFi makes this phone perfect for remote work. The system also offers versatile configurations, including 10 programmable feature keys, four soft keys, and 15 dedicated feature keys.
